<b>E-Mail Professional Spam Filter (Set up)</b>	

SpamExperts provides enterprise level spam filtering in the email security industry. To protect our clients, we have installed a hardware based spam firewall on this infrastructure. This means (for any accounts which have activated it), all email sent to you will need to pass through our SpamExperts servers before hitting your mailbox, ensuring maximum security and protection is provided to our clients. £1.80

**E-Mail Professional Spam Filter (Annual cost)**

This is the on-going annual cost for the above service. £30.00

**E-Commerce**

**Shopping basket set-up (Simple - PayPal)**

This type of e-commerce site is recommended for an online store with less than 20 products. If you have more products (or services) you wish to sell online, we recommend you consider the Cubecart option (see below). PayPal is widely recognised around the world as a secure means of receiving online payments. £21.00

**Cost per shopping basket item (Simple - Paypal)**

Each item you wish to sell on the above option has a cost to set up. £0.75

**Shopping Cart Set-up (Cubecart)**

The Cubecart option allows many more (hundreds) of products to be managed via a database. This allows you to maintain the catalogue of products (including descriptions and prices) yourself from any web browser. £126.00

**SSL Security Certificate (Strong Business Level)**

Required for protecting customer's details, avoiding browser security warnings, and maintaining Google rankings.

1 year	£82.00
2 years	£75.95
3 years	£72.50

**Cost per Cubecart Item**

Each item you wish to sell on the above option has a cost to setup (if you require Quantum Enterprises to initially set up and / or maintain your store). Note: The excludes additional image editing costs. £0.75

**Cubecart Modifications**

Cubecart modifications enhance the functionality of the basic Cubecart software and are available from third party vendors. There is a cost to purchase many of these mods, plus an installation cost. Purchase Price

**Content Management (Allows client to edit pages)**

**Content Management System Set-up**

A content management system allows customers to edit their own web pages from a web browser. Although the system we use does not allow complete redesigns of web pages, it does allow you to change defined areas of text on a website. This is the initial cost to set up the system. Each page that is to be edited has an additional set-up charge (see below) £85.00

**Content Management System (Per Element)**

Additional setup cost for each BLANK ELEMENT that will be editable using the content management system. £0.90

Additional setup cost for each COMPLETED ELEMENT that will be editable using the content management system. (This is for retrofitting on existing websites) £3.60

**Special Forms (Prevent spammers from grabbing e-mail addresses)**

**Form Mail - Set Up**

A Form Mail service does not embed e-mail address within the web page and can have an additional CAPTCHA option that requires the user to fill in an automatically generated password. This helps to prevent spam crawlers from automatically filling in the forms. This charge is for the initial set up of this service. £10.50

### **Form Mail - Annual subscription charge**

This is the annual subscription charge for the Form Mail service. £15.00

### **Cost per Form Mail form**

Each web form that is created has a one off design charge. Note: Particularly long and complex forms will incur additional charges based on the current hourly rate. You will be advised if this is necessary. £5.25

## **How Many Hits Is My Website Getting?**

### **Website Visitor Statistics Setup**

We can set up a program called AWStats that allows you to access detailed information about visitor numbers, popular pages, where they have come from, search terms used, etc - all accessible via a web browser. £1.80

## **Search Engine Optimisation**

### **Keywords, Metatags, Search engine submission (Basic Service)**

Search engine optimisation is the process to get your website higher up in the rankings on Google search. We achieve this through a combination of ensuring that the correct keywords are used on the page, that the page is given a suitable description, and that the site is submitted to Google via the webmaster tools. This is often sufficient to gain good rankings, but there is also a fuller option below. Includes Google sitemap submission. £21.00

### **Keywords, Metatags, Search engine submission (Full Service)**

As above, but this service includes further keyword analysis, competitor analysis, and (if required) the addition of a table containing specific keywords based on use of the Google keywords tool. £105.00

### **Google sitemap submission**

Google sitemaps are an additional tool to help Google index a website. £1.80

### **Website Visitors Report Chart and SEO**

Cost per chart update with visitor numbers. (Search engine optimisation (SEO) activities charged extra) £0.70

### **Cost per keyword checked**

Cost to determine ranking of each keyword on Google search £0.35

## **Miscellaneous**

### **Admin Fee (Domain transfer/renewal, hosting renewal)**

This is a standard chargeable fee for the above. £1.80

### **Remote PC Connection Fee**

Cost to connect to a remote PC to help solve problems. Note: There is an additional time cost if this service is outside normal website related support. £5.65

### **Additional work - cost per hour**

Any on-going work is charged at this rate. £21.00
