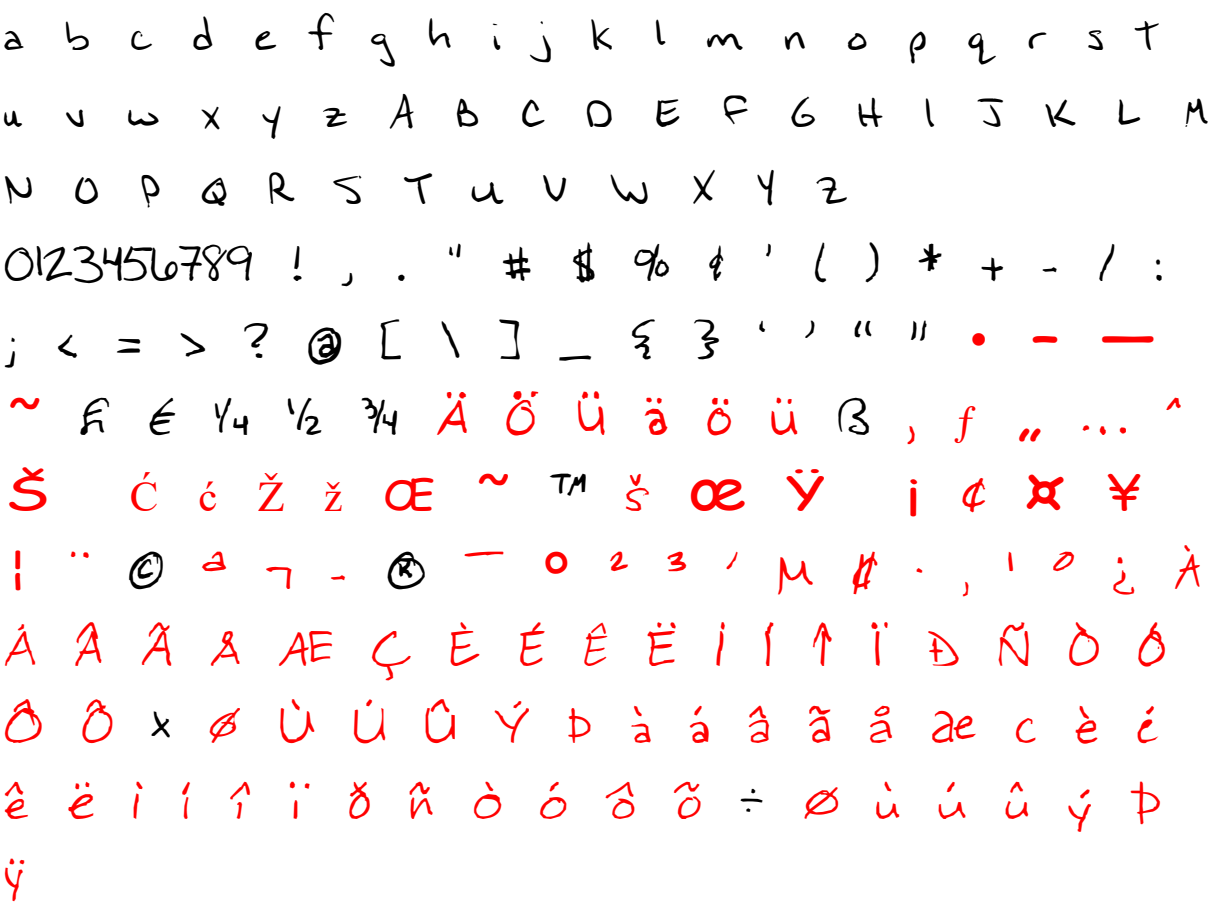
Font Name: **PremiumUltra10**

Scriptalizer Version: **2** Optimum Font Size: **22 pt**



This sheet does not include additional Premium 'Ultra' characters. Excluded characters or character approximations are shown in red.

NOTE: This is one of our earlier fonts and was created before customers were given the choice between the 'Standard' and 'Full' character sets. Instead, they chose which characters to supply and our previous font creation software added approximations for those characters that were missing. For this reason some characters may only be poor representations. We have retained these characters for you to use if you want.

You can add or replace any characters you require when you place your order.
